3. **Stock exchange trading** limit _____ valid for one day valid until _____
stock exchange _____ Order code _____

The selected distribution channel and customer class correspond to the defined target market of the above-mentioned security.

The depositor has sufficient knowledge and experience to adequately assess the risk of the securities to be ordered.

General notes: This order does not contain all information necessary for an investment decision. The investment decision is based exclusively on the issuer's (issuer of the certificates or bonds) issue or sales brochure with the certificate or bond terms and conditions contained therein and information on opportunities and risks. Please read the brochure carefully! Questions about the investment should be asked before placing the subscription order, if necessary. The purchase order does not constitute investment advice or a recommendation. The subscription price (settlement price) may include a standard bank subscription commission. Subscription commission and the issue surcharge, or a part of it, may be reimbursed to your account manager and/or NFS under a transfer agreement.

Particular risk information: The investment in securities is subject to certain risks. Typical risks, so-called 'basic risks' apply to almost all securities; in addition, the individual types of securities are subject to special risks. Under especially unfavourable circumstances, multiple risks can cumulate and mutually reinforce each other. For detailed information on the risks of the securities you have purchased, please refer to the respective sales prospectus and the basic information for securities. In extreme cases, this can result in the total loss of the capital invested. Due to their legal nature as (partial) debenture bonds, certificates and bonds include the risk of a total loss of the invested capital in the event of the insolvency of the issuer (issuer, creditworthiness or default risk). This also applies to so-called guarantee certificates. In general, there is no deposit protection for assets invested in certificates or bonds.

Within the scope of the order placed, I/we confirm receipt of the following information, notes and documents:

- I/we have been informed about the risks of total loss of my/our capital due to insolvency of the issuer.
- The cost and grant statement was made available to me/us. This information is available at any time at www.nfs-netfonds.de/kosteninformationen.
- For the above mentioned purchase(s), I/we have received the information sheet(s) on paper or in electronic form.
- Late trading has been pointed out to me/us (late trading means that the order is forwarded more than 30 minutes after acceptance).
- without consultation: Investment consultation did not take place. No suitability test of the securities with regard to the personal circumstances of the depositor was carried out.
- I/we have been advised that my/our order is being held back because
- the security to be ordered is not suitable for me/us as I/we do not have sufficient knowledge/experience with it/them.
 - The necessary information is not available, and therefore an assessment of suitability is not possible.

New customer instruction received on: _____ / _____ (date / time)
